Key Skills

- Design :
 - 3D Exp / Catia V5
- Programming :
(MATLAB, C++, Python)
- Simulations :
 - Abaqus
 - Ansys Fluent
 - Ansys STK
- Testings :
 - Definition
 - Realization
 - Analysis
- Project management
- Office Pack

Soft Skills

- Problem-solving
- Adaptability
- Team spirit
- Rigor
- Taste for challenge

Languages

- English : C1
- French : Native - Business Mention
- Spanish : B1

Aerospace Engineer

Aerospace engineer, currently pursuing a Advanced Master's degree at ISAE-SUPAERO. Motivated by innovation and advanced technologies in the aerospace field, I am seeking a **6-month minimum opportunity from April 2026** (internship or job) to apply and further develop my skills in design, R&D and/or system integration.

Professional experiences

Design and R&D Engineer | AIRBUS Helicopters

March - September 2025 | Internship | Paris-Le Bourget, France

- Development & implementation of a **pre-dimensioning** method to support blade **structural design**.
- Adaptation of the design process to an innovative composite manufacturing technology.
- Definition and analysis of characterization **tests**.
- Identification of potential challenges, establishing predictive considerations and corrective solutions.
- Modeling & technical documentation to validate the approach.

R&D Engineer | Ateliers BIGATA

July - August 2024 | Fixed-term Contract | Eysines, France

Project continuity : Cryogenic test bench.

- 3D modeling and drawings using **CATIA**.
- Design file creation.
- **Management** of cryogenic tests.
- Training of an intern to ensure effective continuity.

R&D Engineer | Ateliers BIGATA

July - December 2023 | Internship | Eysines, France

Research and development of a cryogenic test bench:

- Mechanical and fluid **design**.
- **Assembly-Integration-Tests** : Data sheet studies, selection, installation, capacity characterization.
- Structural **Dimensioning**.
- Creation of **procedures & tests** : gas & cryogenic.
- **Development** of an acquisition system.

Education

Advanced Master, Aerospace Structures

ISAE-SUPAERO | Toulouse, FR | 2025-2026

- Structural Modelling & Design
- Spacecraft and Launcher Design
- Innovative & Strategic management
- Aerospace qualification
- Dynamics, Flexible, Fatigue
- Mechanics of materials

Aerospace Engineer, Master's degree

ELISA Aerospace, Engineering school | Bordeaux, FR | 2020-2025

Missiles and Space Systems engineering Major

- FEA, CAD, Programming
- Space & Fluid Mechanics
- Aerodynamics (Space Launchers, Compressible, Hypersonic)
- Satellites, Launchers & Missiles Design
- Operational safety
- Composite Materials
- Heat transfer
- Material strengths
- Machine Learning
